Robbing Fruit Trees.

We had a neat dwarf apple tree, only about a yard high, in our garden, and which we had cultivated with care, and on which we had seen the fruit blossoms in their beauty and promise, and the young fruit had formed and grown until the apples were over an inch in diameter.—There were not many of them—scarcely a dozen, but they were of interest to us above that of a bushel grown in orchards, and we had hoped to gather them carefully in the early harvest, and share their richness with our friends and little ones, but a boy crept into our inclosure and plucked these green, and to him, worthless apples, and carried them off.

The loss is small but the crime is great; rather we should say would be great had not the boy grown up without that instinct which teaches the rights of persons and property. He might have been so educated, that those apples would have offered to him no manner of temptation. He might have been so taught, naturally and easily, that he would not more desire the most beautiful production of nature or art, however much exposed.

We know a whole school of children, who during the season has been allowed to run about in a garden of flowers and fruits without so much as touching, except in one instance, a single gooseberry. In that case the child was alone in the garden, and, thought no eye beheld nor ear heard, and she plucked a single berry.

There is One Eye that always sees, kindly spoke the teacher through the window plant.—It was enough, the little girl ran home to her mother and told her in tears that she had done wrong, and God had seen her!

We are reminded by this, that, in our visits to the public schools in Philadelphia, we found the grounds about them as neat as any garden in this city. The walks were bordered with the dwarf Box plant, and beautiful flowers were in bloom, and the walks were very neat, and no careless foot had trodden down the green grass. In some of them were finally sculptured marble ornaments—a large dog, for instance, lieing amidst the grass with its pointed ithin ears drooping, and which a walnut if thrown at them would have broken. And there that dog had remained for years unbroken, unscorred and unbroken. We could not but feel the force—the interior, mind-illuminating and heart-warming force, there must be in that gentle and bountiful discipline which could bring the hundreds and thousands of children, attending the public schools in Philadelphia, to respect and love and protect the objects of beauty, and of taste in the public grounds of their public schools.

So, too, may be seen upon the public Commons of that city beneath the graceful shade of wide spreading trees numerous Grey Squirrels sporting in the untrodden grass, and Peacocks spreading their gay plumage, and beautiful fountains playing. The children carry nuts and other articles to feed the squirrels, and at their gentle call of "Bonny, Bonny," they come and feed from their hands. But no one steals them, no one frightens them, no one injures anything about the Commons; unless, perhaps, as in one case while we were there, a New Hampshire youngster of some seventeen years of age entered the Common, and seeing the squirrels, gave chase to one of them and was only prevented from carrying him off, at all hazards, by the interposition of a Police Officer, who was called for the purpose.

"I learn it all," said he, "if I could only have got off with him, I should have been glad, and could have sold him for a dollar!"

Would it not be well for a general reform to take place throughout New England in the education of children, by which all the destructive habits now so common, may be remedied.

C W Paine et al. v. H C Haines & trustee. J E Godfrey for plf. Bake for trustee.

The Court having gone through the dockets of the several Counties in the District, heard all the cases ready for Argument, adjourned to this P. M. when they will pronounce opinions in cases argued.

☞ The Steamer Granite State, a large high-ly finished and elegantly furnished steamer of fine Propeller construction, visited the Penobscot on Tuesday on her first trip between Boston and this city. She is to run on the route direct between Bangor and Boston without making the usual landings on the river, though she may touch at Portland regularly. The Granite State appears to be rather too large and drawing too much water for the regular business on this route. She is an elegant vessel, however, and perhaps the experiment of placing her upon the line may succeed.

S. R. Glenn, Esq. of the Boston editorial corps, and several of his friends came passengers in the Granite State took a peep at our city, and gratified the hospitalities of Capt. Garnsey of the well-known and exceedingly popular Bangor House, and left this city yesterday noon on their return home in the Granite State.

☞ The Boston papers and others in their interest are thinking very patiently for whig votes, and they bait their hooks with various articles to suit whatever may chance to come along.—The temperance whigs are importuned to vote for Gov. Hubbard as a test of their confidence in the Maine Law, while the Rum whigs are coaxed to vote for Mr. Chandler, and whichever of them is voted for, the whole vote will be claimed as "democratic strength." If the whigs can bite sharply at such bait they must be too stupid to see the hook.

Secretary of the Navy.

The successor of Mr. Graham has not been definitely fixed upon. It is thought Maryland will get the appointment, in which case Mr. Kennedy may be the man, though the post has not been offered to him, unless it has been done within a few days. Mr. Graham will not resign until after the sailing of the Japan expedition, which will be delayed several weeks over its appointed time.

Excursion this Day.

The steamer Governor will make an excursion to Castine and among the islands in the bay, this afternoon, affording a charming opportunity to escape from the sweltering heat of the city, and the dust and din of busy streets, and to enjoy a free breathing of pure sea air (worth more than medicine), and a social pleasure party of fashion and comfort.

☞ John C. Rives, says:—I have seen the manuscript writings of most of the great men of this country during the last twenty years, and I may safely say, that no twenty of them could equal the test of one half the journeymen printers employed in my office.

☞ The Panorama—Price Reduced. In order to accommodate all the citizens of Bangor with a view of the beautiful Panorama at Market Hall, the price has been reduced to 12 cents, which runs both old and young, rich and poor, can afford to pay and enjoy the beautiful and patriotic exhibition. The Panorama closes with the week and this is the last chance and should be improved.

☞ A large number of the principal merchants and others in Boston, have petitioned Congress to recognize the Independence of Hayti.

☞ The New Bedford Standard states that Mr. J. S. D'Orsay, has recently discovered a substance which when applied to the walls and ceilings of halls and churches in Fresco, renders it impervious to water. It bids fair to be a most useful discovery, and Mr. D'Orsay is about to secure a patent for the article.

Foreign Items.

The result of the election in England, it was thought, would result in Lord Derby's Government not getting a working majority. It was feared that the election would not pass off without disturbances, Stockport riots having fearfully aroused the religious animosities of both Protestants and Catholics in the North.

A large number of pikes were seized by the police at Liverpool on the 3d inst, which it was said were intended for the Orangemen, to be used either for defence or aggression at the election.

It is stated that a recent attempt to poison the French Minister was made in Rome, by putting arsenic in his coffee.

Advices from Rome to the 30th ult., communicate information that Murray was still in prison, and that the Pope had not yet determined as to his fate. The papal government had ordered a new emission of soppes.

The citadel at Turin has been disarmed, and it is said the King is now endeavoring to demolish the ramparts and so convert the building into a barrack, in order to afford the population the best proof of his confidence in their loyalty.

CONGRESS.

WASHINGTON, July 19.

In the Senate. Mr Hamlin presented petitions in favor of the passage of the Land Distribution Bill.

Mr Sumner presented a petition signed by Cooper, Bryant, Irving, and other American authors, in favor of an international copyright law.

Mr. Davis reported a bill authorizing the Secretary of War to purchase a lot of ground adjoining the U. S. Arsenal at Baton Rouge, which was taken up, and after debate, ordered to be engrossed.

Mr. Hamlin offered a resolution requesting the Secretary of State to Communicate to the Senate next session all diplomatic or consular correspondence containing information relative to commercial regulations in foreign countries.

Mr James gave notice of a bill relative to the appraisement of merchandise to prevent fraud in the valuation of imports, and for other purposes.

Mr Mason submitted a resolution that the President communicate to the Senate correspondence between the Governments of the United States and Mexico, in regard to a right of way across the Isthmus of Tehuantepec, granted by Mexico to a Mexican citizen, and which grant, by subsequent assignment, was transferred to a citizen of the United States, and embracing all the information in the possession of the Executive, concerning the alleged abrogation of such grant by Mexico, the discontinuance of the work, and expulsion of those engaged in it, together with all documents connected therewith; also all correspondence between the two governments in relation to any proposed treaty on the subject.

Mr Mason explained the whole circumstances attending the Garay grant, and the expulsion of the American grantees. He understood the right of way now in the hands of the British Government. He thought that for the next twenty-five years, that route would be the one by which American citizens were to pass to and from States on the Pacific, and it was the settled determination of the American people, that come what may, they would never permit the exclusive right of way across the continent to remain in the hands of any Government foreign to the continent. He desired that the information should come before Congress, that the representatives of the several States might determine whether measures are necessary to protect American citizens from outrage, and to prevent any foreign Government from holding the exclusive right of way over any portion of this continent.

Mr Gwin said he heartily concurred in all that the Senator said, except that the travel to the Pacific was to be by the Isthmus for, the next twenty-five years. He hoped to have a railroad to the Pacific long before that time. The resolution was adopted.

Mr Bell's resolution, requesting the Secretary of the Navy to communicate to the Senate a copy of a memoir of the landing of the troops at Vera Cruz in 1847, written by Lieut. Temple, was taken up.

Messrs. Walker, Borland, and Mason, opposed this new attempt at book-making, and opposed also the publication by the Senate of what might be intended as a political pamphlet.

Mr Douglas was in favor of having the history of the war written, to have justice done to every one engaged in it. While opposed to publishing a member of any one person's acts, and preferring a memoir of the deeds of all, he moved that the resolution pass.

Mr Bell replied, denying that it was intended as a political pamphlet, and urging the passage of the resolutions. The subject was however postponed.

The Deficiency bill was then taken up, and the House having refused agreeing to the Senate amendment appropriating $60,000 for pay and mileage of Senators, Mr Hunter said that $31,000 was intended to supply the deficiency caused by the payment of constructive mileage of Senators at the last called session of the Senate, and the balance for the pay and mileage of Senators appointed to fill vacancies, &c. The constructive mileage had been paid to Senators according to law, and by the decision of the proper officers.—The House could not defeat it by simply striking it out.

He thought each House ought to leave the personal matters of the other House alone. What would ensue if the Senate should retaliate by refusing to appropriate pay to members of the House who should absent themselves from the House during its session? There was such a rule, and the Senate, if disposed to, might thus interfere with the pay of that body. He moved that the Senate insist on its amendment.—Agreed to unanimously, and Messrs. Hunter, James and Upham were appointed a committee of conference, on the motion of Mr. Gwin, and the Senate went into Executive session, and in an hour and a half adjourned.

In the House. After the reading of the journal, the House took up the bill granting right of way to all Railroads and plank roads passing through the public lands belonging to the United States. Much discussion followed.

Mr Smart moved to lay the bill on the table. Motion lost; yeas 70, nays 91.

Before proceeding further, the morning hour expired.

Mr. Houston moved a suspension of the rules, to enable him to offer a resolution that, until otherwise ordered, the House will hold an evening session, commencing at 8 o'clock each day, which shall be devoted exclusively to discussion on Contingent of the Whole on the State of the Union.—He stated his object was to enable gentlemen to make pronunciamento speeches. The House refused to suspend the rule—nays 101, yeas 98—not two-thirds.

The Indian appropriation bill was then taken up in Committee of the Whole on the State of the Union. When the Committee rose, the various amendments reported were concurred in, and the bill passed.

A message was received from the Senate, asking a Committee of Conference on the amendment of that body to the Deficiency Bill, disagreed to by the House, appropriating $60,000 to pay the balance due for mileage of Senators.

Mr Stanly moved that the House recede from its disagreement. Agreed to—yeas 99, nays 86.—So the bill only requires the President's signature to become a law.

On the motion of Mr Mallory, the House took up and passed the Senate bill to authorize the Mayor and Common Council of Chicago, Illinois to excavate a portion of the public reservation of that place, with a view to the improvement of the Chicago river.

Mr Fowler asked leave to introduce a resolution to supply the new members with the same kind and amount of books which the old ones had received—pending which, the House adjourned.

WASHINGTON, July 20.

In the Senate. Messrs. Chase and Fish presented petitions in favor of the homestead bill.

Mr Fish presented a petition of merchants and others of New York, praying for the recognition of the independence of Hayti.

Mr James introduced his bill, amending the tariff laws.

In the House resumed the consideration of the bill granting the right of way through the public lands to all incorporated plank road and railroad companies.

Mr Jenkins moved that the bill be laid on the table—negatived, negatively. Yeas 66, nays 78.

☞ A meeting was held in Portland, on Saturday evening, to take measures to aid in the relief of the unfortunate sufferers by the Montreal fire. A committee was appointed to solicit subscriptions, and the pastors of the churches were requested to cause a collection to be taken in their several parishes.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

LATER FROM EUROPE.

ARRIVAL OF THE

AMERICA

AT HALIFAX.

HALIFAX, TELEGRAPH OFFICE, July 21, 1852.

The Steamer America arrived yesterday.

LIVERPOOL COTTON MARKET.

Business during the week has been slack, influenced in a great measure by the political excitement consequent on the elections.

The Baltic's news had no perceptible effect on the transactions of Wednesday, nor, indeed, can any variation of prices be noted during the week, although in some instances buyers succeeded in buying at an advantage of 1-16 to 1-8d per lb. The quotations on Friday evening, at the close of market, for fair Orleans 6 3-8d. Middling 5 3-8d, fair Mobiles 6 7-8d, Middling 5 1-4d, fair Upland 5 7-8d. Sales of the week 36,270 bales, including 6,140 on speculation—75,000 for export. Stock at Liverpool is called 658,000 bales, of which 512,000 are American against 513,000 last year.

CORN MARKET.

The continuance of fine weather has quite depressed the grain market, and the demand is limited, but importers have refrained from forcing sales.

Wheat may be quoted at 2d decline per 70 lbs. Flour declined 6d per bl., and Indian Corn a shade easier.

PROVISIONS.

From Wm. Gardiner & Co.'s Price Current. The late importations of beef proved but of indifferent quality, and holders demand extreme rates which checks business. Fine qualities are much wanted, but there is scarcely any in importers hands. Very high prices continue to be realized for Irish and fresh pork. No American here. Bacon at the late advance does not sell so freely, but as the weather is favorable for consumption, an increased demand may be looked for. Lard is dearer 2d to 3s per cwt., with a light stock, quoted 49s 6d.

Tallow lower, 3d to 6d per cwt.

No Cheese received here this season.

Butter realizes extreme rates.

NAVAL STORES.

Rosin in good demand. Two thousand barrels sold at 2s 10d.

Spirits Turpentine without change.

Ashes, fair business doing at former quotations.

MONEY MARKET.

Money continues as abundant as ever, and discounts easy. Consols 100 to 100 ¼ and ⅜.—Prime bills can be done at 1¾ to 2 per cent.—Bullion continues to augment. There is now in the issue department of the Bank £21,780,000. The highest range for Consols this week for money has been 100⅜, lowest 100. Foreign securities dull. Railway shares unimportant. For American stocks, a good demand exists for all classes of American stocks except Railway bonds, which remain heavy. Quotations scarcely differ from last advices, £4000 more of Peruvian three per cents were sold off during the week.

STATE OF ENGLISH TRADE.

From A. Dunnston & Co.'s Circular:

We have no change to notice in business generally, but the elections now going on throughout the country rather diminish its activity.—The cotton mills are in full employment, and the goods are in fair demand, with change in prices.

Paris manufacturers are still employed with orders from La Plata. Commission Merchants are also buying for the provincial fairs. New silk is beginning to appear, and finds ready buyers at 67 to 70 francs, the Kilogramme.

The manufacturers at Lyons and Vienna are in full work. There is little doing in the Cote du Rhone.

FREIGHTS.

Messrs. Train & Co., report cargo and passengers unchanged from last week.

From London Saturday noon. There is really no news to report. Nothing later than the 7th has come to hand. Cotton market then dull. America's advices arrived, but the Baltic had not reached, although due.

HALIFAX, July 21.

The screw steamer Sir John Henry, arrived at 4 A. M. to-day. She was detained by defect in the Compass. She sailed for Boston at 7 P. M. America sailed a quarter before 9 P. M.—Wind west and pleasant.

The Propeller Levanute from Burmuda arrived Saturday. Nothing important.

British Schooner Mischief, from Matazz, for New York, leaky, with a load of spars, put into St. George's on the 12th.

Bark Eliza Barss about to sail on the 12th or 14th for New York, had 25 passengers engaged.

Steamer Passevanre arrived at St. George's from New York on the 6th for Coal. Commenced coaling on the 11th.

Affairs at Washington.

WASHINGTON, July 21.

Gen. Scott is ill with the dysentery and will not attend the Niagara gathering.

Sen. Sumner of Mass., will introduce a motion next week for the repeal of the Fugitive Slave Law, advocating the same in an elaborate speech on the true relations of the National Government to Slavery.

Post Master General, Hall, it is said will be appointed Judge for the Northern district of N. York, and if so, Francis Granger will be P. M. General.

The Fishery troubles it is believed here, will amount to nothing.

The vacant Judgeship of the Supreme Court will be given to a Louisianian.

A Perilous Situation.

BUFFALO, July 19.

Late last night, a boat with one man in it was discovered in the rapids, near the brink of the Niagara Falls, stuck fast in the rock. This morning at daybreak the boat was still there, when a fisherman named Joel Robinson, at the peril of his life, put out in a small skiff to the man's relief, and succeeded in rescuing him.—He proved to be a fisherman named Johnson, and was fast asleep at the time he was relieved. A purse of $200 was made up by the visitors at Niagara for Robinson.

From the South.

Southern papers, including New Orleans dates of the 13th, have been received by the steamer Warren from Charleston.

The Cherokee, which sailed from New Orleans on the 12th for Havana and New York, took 122 passengers, including 32 emancipated negroes, lately belonging to the estate of Elihu Creswell, deceased.

Measures for the extension of the New Orleans & Jackson Railroad are progressing with great spirit. A Convention was held at Aberdeen, Miss., on the 2d, at which $500,000 were subscribed for its passage through that place; and 20 citizens of Tennessee have united, and taken all the stock required for its extension from Nashville to the Alabama line.

Advices from Alabama, Arkansas and Mississippi, report the crops to be unusually promising.

The True Delta opens the subject of a line of steamers between New Orleans and Europe.

In the State Convention of Louisiana, for amending the Constitution, a resolution prohibiting the introduction of slaves into the State as merchandise, was lost; another, prohibiting the emancipation of slaves and denying to free colored persons the right to hold or inherit property, was referred.

The Thrasher dinner in New Orleans was a grand affair. He made a long speech, which is highly praised in the papers, giving a description of the politics and social condition of Cuba.

DIED.

In this city, 19th inst, Frederick Lawler, youngest child of Michael and Mary J Gilligan, aged 4 yrs and 5 mos.

In Winnacunnet, N. Hampshire, on the 9th inst, Nathaniel Pike aged 74 years. He left his house about 3 or 4 o'clock in the afternoon to go into the field where he was found dead a few hours after.

THIS Painting is without doubt the greatest work of Art ever exhibited in this Country, being painted on nearly 20,000 square feet of Canvas at an expense of upwards of $15,000. It represents the principal events in the History of our Country from the landing of Columbus in 1492 to the battle of New Orleans in 1815, embracing as it does a greater variety of scenes than any other subject that could be presented—giving a correct history of our country from its settlement "a feeble colony" to its present position "occupying the highest pinnacle of National Glory."

The Proprietor feels confident in saying an evening cannot be more profitably and pleasantly spent than in acquiring a correct knowledge of our Country's History.

Bangor Air-Tight COOKING STOVE

THE best Cook Stove ever introduced to the public for use.

Having secured the sole agency of this very valuable Stove, I take great pleasure in recommending it to my customers and the public. This Stove was invented expressly for the severe winters of this climate, and except Stove manufacturers Messrs Bartus & Whitney, who know, and have appreciated the wants of the enlightened people of this section, no one ordered to put in the latest conveniences in stoves and in short every thing that can be required in Baking, Roasting, &c., cannot be surpassed, and its extensive sale from first to last, I have every reason to believe, is unprecedented. Every Stove is warranted to be perfect, and if they ever prove unsatisfactory in any respect, and the fault is not in the flue, or chimney, it will be removed and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

Any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hamden 3 and 4 Boiler and two Oven Stoves, Forrest Queens, &c., and Gas Burners, a beautiful pattern of Cottage Parlor Gas Stove, and in fact every variety of Stoves for Cooking or warming purposes, can be found at the Central Street Stove Furnace Depot, No 35 17 and 19 Main st.

CARRIAGES!

Patronise Home Manufactures.

WE are manufacturing Light Carriages of every description, which we are prepared to warrant equal to any in the market without exception. We have purchased the right of a patent attachment for Four Wheel Carriages, whereby Carriages can be made to turn in a very small compass, describing a circle of 8 feet, also avoiding the grating noise occasioned in turning (which is desirable,) as the wheels do not come in contact with the body. We wish it understood that we hold ourselves responsible for the future of our work in consequence of the use of poor stock or work.

We also manufacture Elliptic and Side Springs of a superior quality.

Jobbing in every branch promptly attended to at fair prices.

July 2. D. W. MORRILL & CO.

A few more left and for sale as above.

WE have on hand a few Light Chaises, Phaetons, and Concord style Wagons equal to the genuine article. Also, light Heavy Wagons, all of our own make, which we shall sell low for cash or approved credit.

25,000 Sold per Year!

The Unsurpassed, and Unsurpassable

Bay State Stove,

OF SIX SIZES, of heavy and smooth castings—price from $15 to $36—celebrated for its whole cooking apparatus, effecting all the smoke in broiling and not to be excelled in baking, frying, boiling, &c., &c., for labor-saving and economy—may be had, as heretofore, at the well-known and long established

Stove, Furnace and Range

DEPOT,

Nos. 80 & 82 MAIN STREET, and 2 and 4 WALL STREET, OF

N. JOHNSON,

Who is SOLE Agent, and always has been, for this market, for the sale of the celebrated Stove above named, of which 25,000 were sold the past year, and of which some 30,000 will not be more than sufficient to supply the demand the present year.

The BAY STATE is sold and warranted as usual. Returned after an unsatisfactory trial of 30 days, the price paid will be refunded, together with interest and cost of returning.

Persons purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, nor to wait in Bangor for them, AS I HAVE THEM ON HAND!

A CHALLENGE OF $50

Is proposed, that 50 pieces of six sizes, of any other pattern, on the BAY STATE, (for which I am sole Agent,) cannot be produced which will compare with the 50 I now have in hand in thickness and smoothness of Castings, or in facility and capacity of broiling, baking, boiling or other cooking requisite.

CP The public are specially requested not to mistake a Stove called the "IMPROVED" BAY STATE, which is cheaper and inferior article of thinner and less durable castings, and which is sometimes advertised without the word "improved" as a prefix to the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.

All other kinds of STOVES constantly on hand, as above, which will be sold at reasoned prices.

George Hummell's

ESSENCE OF COFFEE

ON the recharge of the extract of one pound of Coffee to one quart of distilled water and the addition of the proper nutritive and fragrant principles of the finest Coffee berry, this very delicious beverage is produced, which is made to flow from the Reservoir in a stream more delicious than the finest Coffee ever drank, and at a cost of less than 1 cent per cup. Each cherry contains two grains of Coffee, which are separated by the Hummell process, and contain all the nutritive principles of the berry.

This Essence has received the first premium at the American Institute, New York, also a premium by the Franklin Institute of Philadelphia, 1851, in both instances the highest premium for such articles.

The Scientific certificates in our circulars of Drs. Booth and Chilton, two of the first medical chemists in the United States, may be had of nearly all prominent chemists.

DR. FONTAINE'S BALM OF A THOUSAND FLOWERS.

THIS elegant and fragrant preparation is recommended by the faculty of almost every European city, and extensively, under the patronage of the nobility, throughout London and Paris, and is now in use in all the principal cities of New York, Philadelphia and Boston—it is the great luxury, a gift to genteel society, with the improvement of health, enjoyment and personal embellishment, and is now in general use by the most distinguished and the delightful coolness & fragrance of the composition.

Ask for the genuine Fontaine's Balm of a Thousand Flowers!

FIRST—This Balm gives a brilliancy to the complexion, and is the most delightful preparation for the skin ever offered to the public.

SECOND—It entirely removes tan, sunburn, redness and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth and white.

THIRD—It is the greatest Preventive of the Hair falling out, causing it to curl in the most beautiful manner, and restores it to the very youthful color.

FOURTH—It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a DENTRIFICE for cleaning the Teeth, it is by far the most unrivalled of any compound yet discovered, preventing decay, relieving pain, disease and canker, and rendering the teeth as white as alabaster. For bathing, it softens, cleanses and refreshes, and renders the skin soft, healthy and fair, and by its use, all roughness, redness, pimples and blotches are removed, leaving the skin pure, health and fair, and to prevent eruptions, chilblains, there is no article more valuable than this. It may be used in cold or warm water, according to the season.

which are recommended to the afflicted for the cure of Rheumatism, Gout, Paralysis and Nervous Complaints, when Physicians, Dr. Wm. Wood, Dr. C. P. Phillips, Dr. John Bissett, Dr. John Esler, Dr. David Vanderhoof, in New York; Dr. McMaster, in Baltimore, etc., have proved their power. More than 10,000 have been sold in the United States, which are confirmed by the Government of Russia. All persons afflicted are respectfully invited to call on my Agent and satisfy themselves of the truth of these statements. Pamphlets containing certificates of cures performed by them, can be had of my Agent.

The Galvano-Electric Rheumatism Chains of Goldthwait, are to be obtained of the following Agents:

Indian Roots and Barks,

which no other medicine possesses. These ingredients in Brady's Purifying Extract will be found to be the most powerful combination in the world.

Sarsaparilla, Yellow Dock,

CHERRY AND SASSAFRAS BARKS,

make the Vegetable Extract, not only the greatest Blood Purifier, but also a Pleasure and Safeguard to the Constitution. Be sure and try it. It is cheaper, because it is more concentrated. Bear in mind that a bottle that lasts much longer, and will cure Ten Times more disease, is worth Ten Dollars' worth of any other kind.
